Q2 Construct on-course accommodation to attract primary golf tourism. Whilst there is significant tourism in our region, there isn't a great deal of tourism for the specific purpose of playing golf, we have the course, but not the facility infrastructure to support golf groups who desire play and stay packages. The type of accommodation (options may include an rv/caravan park, luxury units or tiny space units) would be a major component of a preceding feasibility study.

Q3 Construct a modern miniature golf course such as the shanks system. Mini golf has come a long way and is now a growing part of traditional golf course development plans. Modern mini golf is focused on being a “miniature golf course” without the gimmicks such as windmills, ramps, and loops. Its still fun to play but also provides a soft entry into the game for new players who wouldn’t usually be exposed to traditional golf.
